

# Sweave Example 1

Friedrich Leisch

August 15, 2011

In this example we embed parts of the examples from the `kruskal.test` help page into a  $\text{\LaTeX}$  document:

```
## data(airquality) library(stats) kruskal.test(Ozone ~ Month, data =  
airquality) @ which shows that the location parameter of the Ozone distribution  
varies significantly from month to month. Finally we include a boxplot of the  
data:
```

```
## fig=TRUE, echo=FALSE ## boxplot(Ozone ~ Month, data = airquality) @
```
